

## Green Your Windows

save  
up to

**1500 lbs CO<sub>2</sub>**!

Installing energy-star rated windows in your house will make a big difference in the amount of energy it takes to heat and cool your home.

**40% of the heat in a home escapes through the windows.** Energy efficient windows will help maintain a comfortable room temperature and lower your bills.

Upgrading **just 1-3 windows** can help, and you can receive a tax rebate for qualified windows! *More info:* [www.energystar.gov](http://www.energystar.gov).

**Save \$150/year**
