

## Update Your Lights

save \$90/year

**Fact:** CFLs use 25% of the energy of incandescents, and come in most shapes, watts and colors and many are dimmable. All parts of the CFL are recyclable—including the hazardous mercury—so it's important to bring them to a recycling center.

**Act:** *Replace at least 10 lights with CFLs*, or as the kids say, "twisty bulbs." Remember your outdoor lighting as well.
