

Home Energy Makeover

save up to **5,400 lbs** CO₂!

Fact: A home energy audit can result in saving up to 25% on your energy bills. Energy audits locate drafty air leaks, determine the effectiveness of current insulation and ventilation and suggest other improvements in order to reduce your energy use.

Act: *Schedule a home energy audit.* Visit the US Dept of Energy's website at energysavers.gov for tips on how to hire an outside firm or conduct your own energy assessment.
