

**Go by Land!**

save  
up to **10,000 lbs** CO<sub>2</sub>!

**Fact:** Air travel has the highest CO<sub>2</sub> output of any travel available; in fact, just 1 transatlantic flight can increase your footprint as much as a whole year of driving.

**Act:** Choose to take a business or family trip by car or train, and help shrink your footprint. Just doing this one time per year really counts. *And, you'll be able to check out more of the scenery!*
